Boardroom Certified Qualified Technology Expert (QTE), Digital Directors Network

Alexander Antukh is an award-winning cyber leader with 15 years of experience in various companies, from small technology startups and consultancies to some of the largest financial organizations in the world. Having lived in four countries, he has broad experience of working in diverse multicultural environments, both in EMEA and APAC.

Antukh has successfully completed his Executive MBA cum laude and actively supports various non-profit organizations that promote education and equality, such as Women4Cyber and WiSAP.

Antukh is currently the CISO of AboitizPower, the Philippines' largest owner and operator of renewable energy, where he closely works with the Board of Directors to continuously improve digital risk oversight.

He is also the CEO and Founder of an Estonian cybersecurity consulting firm Cyber Hermes that provides cyber crisis management and breach preparedness services. It was featured in the Javelin Strategy & Research report for its ethics in negotiation.

On a personal level, he loves practicing gongfu tea, playing chess, and having conversations around philosophical topics.
